

THE Gleichen Call

NINETEENTH YEAR, NO. 30

GLEICHEN, ALBERTA, WEDNESDAY, OCTOBER 14, 1925

SUBSCRIPTION \$2.00 A YEAR

MINUTES OF GLEICHEN TOWN COUNCIL

A meeting of the Gleichen Town Council was held in the Town Office on Friday last.

Present: Councillors Moss, Brown, Wright and Bates.

In the absence of the mayor Councillor Brown took the chair.

Ald. Wright and Moss: That the minutes of meeting of September 11th be adopted as read.—Carried.

The secretary reported that he had been unable, so far, to obtain satisfactory evidence regarding the Don Brier claim.

Re Lot 1, Block 7, the secretary reported that the registrar was unable to comply with the request to have endorsement made reserving the lot for the Community Hall purposes.

Ald. Moss and Bates: That the minutes of 11th, September appointing Eli Woods as special constable be rescinded and that W. H. Busby be appointed to collect the dog tax.—Carried.

Ald. Wright and Moss: That the secretary notify Mr. Boyd that the town is willing to pay court costs in proceedings taken against W. Sabine for non-payment of taxes.—Carried.

Re notice from the Central Alberta Sanitarium regarding the admission of a patient:

Ald. Wright and Bates: That the municipal guarantee form be signed by the secretary and returned to the sanitarium.—Carried.

A petition was submitted from several ratepayers in regard to the approach to the sidewalk in front of A. R. Yates' store. Councillor Brown reported that the matter had already been attended to.

A letter was read from Duncan Clark to give an order for F. F. Clark in regard to seizure of a car in the Birdson Garage. The secretary reported that he had asked Mr. Clark to give an order for payment of taxes to the bailiff but was maintaining seizure until this was done.

Ald. Moss and Bates: That the following accounts be paid: Power account \$250.00; office light \$2.25; telephone \$3.00; L. Michael \$5.15; Flanagan Bros. \$2.70; R. S. McQueen \$39.15; W. H. James \$10.35; Revelstoke Sawmill Co. \$10.05; Secretary-treasurer \$150.00; contingent expense \$3.00; fire chief telephone \$2.00; mayor's light \$3.00; attorney general \$11.40; Gleichen school district \$42.49 and Crown Lumber Co. \$21.30.—Carried.

TURPIN WAS KIND BANDIT TO POOR

"Your money or your life" roared bandit Fielder of Dick Turpin's band of English robbers and burglars as he and Luke Rust and Jack Ross rushed into the chamber of farmer Saunders and his wife near Epping Wood in March 175 years ago. The frightened wife fell to the floor in a faint just as the leader, Turpin, jumped through the window.

"Hold men," said the youthful rogue, "Would ye fright the poor lady to death?" and seizing a flask of brandy he took her head upon his knee and revived her.

"We'll be going now," said Dick and despite curses and threats he forced the ruffians to depart without further damage or the taking of a shilling's worth.

That incident in the life of this famous robber was but one of a score that delighted Tom Mix, the star of the William Fox West Coast Studios as he studied Turpin's life history, preparatory to its transference to the screen as it is being played at the Gleichen Community Hall this week on Saturday evening October 17.

"He was a sober, but a gentleman," said Tom with a smile, "and though he dolled up like a cake-eater when he went out to stick up coaches he made a hit with me."

The Call from now until the end of next year for only \$2.

Three Political Meetings October 20, 21 and 22

Although so far matters political have been very quiet throughout the Gleichen district, but by this time next week the "pot" should be boiling well. In fact one can scarcely realize an election is pending. However, judging from the number of meetings now in sight there are interesting times ahead.

LIBERAL MEETING TUESDAY, OCT. 20th

The first public meeting of the present campaign to be held in Gleichen is announced for next Tuesday night, Oct. 20th, when the Liberals will start the ball rolling for their candidate, Mr. Jesse Gouge. He is to be accompanied on the platform by the Hon. Charles Stewart, the Minister of Interior of Canada, whom all will be especially pleased to hear, at the Gleichen Community Hall.

CONSERVATIVE MEETING THURSDAY, OCT. 22

Then the next night, Wednesday, Oct. 21st Mr. J. S. Mavor and other speakers will address the electors in the Community Hall in the interests of Mr. W. J. Douglas, the Liberal-Conservative candidate. Mr. Mavor is already well-known in this constituency as a capable and forceful speaker and will no doubt attract a large audience.

Conservative meetings will also be held at 8 o'clock on Tuesday afternoon at Cluny and at Bassano on the same night. Later Mr. Douglas will visit Gleichen himself.

U.F.A. MEETING WEDNESDAY, OCT. 21st

Next comes the U.F.A. meeting on Thursday, Oct. 22nd, when the present sitting member, Mr. E. J. Garland, M. P., will speak in the Gleichen Community Hall. His address should be very interesting and instructive as he has represented this constituency for the past term and no doubt will tell about his services at Ottawa.

With these three meetings there should be ample food for thought and discussion to keep the campaign interesting until election day.

PRO BONO PUBLICO

Hon. MacKenzie has promised the prairie provinces a real live cabinet minister apiece in return for their votes, October 29th. Is it possible that from the provincial government, when next we are asked for support we could make a like bargain with them and get our telephone exchange out of the Chinese laundry class. This idea should be worth something to someone with influence.

There are rumors of a dance on election night during which the returns will be announced. Perhaps it's the other way round. Here is novel idea for the orchestra. Have a victory for Hon. MacKenzie King announced by a fox trot and for Hon. Arthur Meighan by a one-step. When a progressive is returned there should be an interval for prayer.

Why not dance the night before the election? One remembers the story of Waterloo. It will surely be a Waterloo for someone, and it will surely be on with the dance afterward. So let's have this extra "scene of revelry by night" and from that let our "brave women and fair men" venture forth to exercise the privilege for which their fathers fought and won and for which Mrs. Pankhurst fought and went to prison.

"Miss Culycue," murmured the manager to the typist, "I must ask you not to write to your young man during business hours. Letters are apt to get mixed. Herb and Blurb report that we have sent them a shipment of love and kisses instead of the axle grease which they ordered."

CRAIGANTLER ITEMS OF NEWS

The weather of the past week has been about the same as usual. The rain Saturday will postpone threshing again another few days.

The potato crop is all harvested and is in fair shape, although the condition of the soil was the worst known in some years past for potato digging.

L. Selgensen made a trip to Calgary by car last week. Although the roads were very bad he made good time. It happened to be a Ford truck 1925 model.

Mr. David McBean and David Jr., of the Burnside Ranch, had some good shooting on the Castle Grant slough last week. Some splendid mallards fell to their guns.

There are still a few delinquent subscribers to The Call whom we would be glad to hear from soon.

Private Sale

Household Goods

AT THE RESIDENCE

Geo. Matthews

GLEICHEN, ALBERTA, WEDNESDAY

GASSING THE SCHOOLS

Chlorine gas is being used this year, in some cities
as a regular adjunct of the school system, to cure colds.
Sometimes it is only applied to the children who are
visibly suffering from colds, and sometimes to all of them.
In one city arrangements have been made to treat the
entire school population, taking the classes in rotation,
room by room.

The chlorine is carried in a small glass tank with a
tube attachment which regulates the flow of gas. When
it is taken into a room, the doors and windows are closed,
and the lessons go on as usual during the "gassing". The
physical director states that all it is necessary for the pu-
pil to do is breathe normally. There is no strangling or
anything especially offensive about the fumes. It is gentle
and almost unnoticeable.

It would be worth a little strangling and choking if
colds could really be eliminated from school. They are far
more dangerous than most parents think. Nearly all the
children's diseases start with symptoms of cold in the
head, throat, or chest, and that is usually the communica-
ble stage of this disease.

The alternative of "gassing" them all is to send every
pupil home for medical care the moment he shows signs
of a cold.

THE FALL TRADE

This marks the middle of the fall trade—thoughts
of winter essentials, warmer clothing, coal in the bin and
numerous other necessities. Under this caption it is
quite true to say that Gleichen merchants have what you
want when you want it. They carry the big stocks in all
lines, anticipating the wants and requirements of custom-
ers, rendering courteous treatment and efficiency in
handling the trade. You are sure of getting what you
want among the numerous stores at this point because the
merchandise is here in great variety and assortment. And
remember that money spent in the home town, means—
your neighbor's profit on your purchase puts him in a
position to pay you a profit on that commodity which you
have for sale, whether it be a home, a shirt, an egg—or
your labor.

ALBERTA SAVINGS CERTIFICATES

Elsewhere in this issue the Alberta Government is
offering more Alberta Savings Certificates for sale at
four and a half per cent interest, which no doubt will be
eagerly bought up.

On the first of last month \$27,352,507.50 worth of Al-
berta savings certificates had been purchased from the
provincial government since the scheme was put into
effect in 1917. Withdrawals totaled \$20,197,030.36 leaving
net purchases to the extent of \$7,155,477.14.

The present year promises to out distance all other
years in investments in savings certificates. For the
eight months registered purchases have amounted to
\$4,009,234.23 and withdrawals \$2,380,063.16, leaving \$1,-
629,171.07 still on deposit, and for which the investors re-
ceive four and half per cent interest. Last year for the
twelve months the net purchases were \$894,592.10, al-
though the total purchases were \$6,307,185.25.

MUST PAY FOR PAPER

In giving judgement against a delinquent subscriber
recently the judge made the statement that newspaper
publishers had had enough time financing their business
without being done out of their subscriptions. If a per-
son wants to stop a newspaper the proper way was for
him to pay all arrears and get a receipt, or if he was paid
up, refuse to take the paper at the post office, and have a
record made of his refusal. A man who owed for a news-
paper could not stop taking a paper, and expect the pub-
lisher to go without his pay.

The distribution of Veteran Poppies as the "flower
of remembrance" this year on Armistice Day will assume
proportions far in excess of any year since the institution
of the custom. Orders received by the G. W. V. A., which
acts as distributing agent for Veteran poppies, are now
in excess of the total distribution last year by several
hundred thousand. About one million poppies were
worn by Canadians last Armistice Day. This year it is
estimated that the total distribution will exceed a million
and three quarters.

Just two weeks more and the agony will be over for
some politicians and others will have a steady job telling
how it all happened.

Not all advertising is truthful, we'll admit. But
some perfectly good liars never advertise at all.

MISCELLANEOUS

Notice under this heading 15 words
or under 50c. first insertion and 25c.
each subsequent insertion—3 weeks
\$1. Over 15 words one cent per word
for each insertion.

When any brands have to be cut a

Don't fail to see them

T. H. BEACH

Every salesman who secured your name on the dotted line left you with a job on your hands.

The goods he put on your shelves must move off again before your profit is reaped. Quick turnover is the key to quick profits. NOW!.....How soon will you re-sell your stock?

An intelligent use of ADVERTISING will prove to be the best possible means of keeping these goods moving. ADVERTISING is a printed salesman of proven ability. Brighten up your store windows, show your goods attractively and ADVERTISE in The Gleichen Call. You will find that the buying public of this community appreciates the "shopping news" in your advertisements each week.

!!! Shop Where You Are Invited To Shop !!!

Here and There

The output of silver from Cobalt during July amounted to about 400,000 ounces, according to preliminary estimates. This had a value of less than \$800,000, or at the rate of about \$2,500,000 a year.

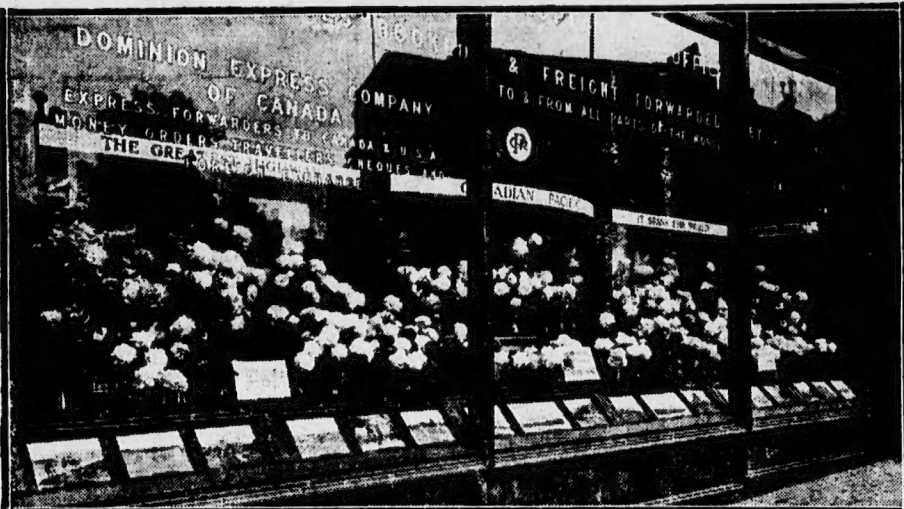

All attendance records for the Central Canada Exhibition were broken this year. There was a total attendance of 349,200, or 42,400 greater than the previous record of 307,000, made in 1922.

The first Italian ship to visit Vancouver in several years will be the steamer Piave II, of the Navigazione Libera Trestina, due here at the end of this month. This boat will inaugurate a new service between this port and points on the Mediterranean.

Production of paper by the Powell River Company, at Vancouver, will be increased 80 per cent by the completion of a \$5,000,000 development programme, now under way, according to an announcement made by M. J. Scanlan, a director of the company. At present the plant is turning out about 75,000 tons a year.

Signs of returning prosperity to Canada are evidenced by the fact that more Canadians are registered in the Canadian Pacific Rocky Mountain resorts during the past week than at any time since the beginning of the year. These resorts, which are usually filled almost entirely by Americans, contain a guest list last week which is 50 per cent Canadian.

Production of gold in Ontario for the first six months of this year amounted to \$14,506,219, as compared with \$11,810,060 in the corresponding period of last year, according to a report issued by the Provincial Department of Mines. Silver production increased from \$3,282,100 to \$3,792,662. Total mineral production was \$41,560,355, as compared with \$37,997,776.

Prize Winning Canadian Peonies Exhibited In London

This unique picture shows the much discussed Canadian Peonies grown in Montreal by Mr. Ormiston Roy and shipped to England in cold storage in a Canadian Pacific vessel, on exhibition in the window of the Canadian Pacific offices in London, England. The Royal Horticultural Society has presented the Banksia Silver Medal to Mr. Roy and several London papers have remarked editorially upon the extraordinarily perfect condition of the blooms after their long sea voyage. An interesting feature of the picture is that in the window may be seen the reflection of the new Canadian Building which stands almost directly opposite the Canadian Pacific Offices and was recently opened by the King and Queen.

Deputy Provincial Treasurer.

Calgary, Alberta. — The No. 4 Royaltie well (Imperial), continues to amaze geologists. Its naphtha production increased July to 546,135 gallons, 78 degrees Beaume, an increase of 25 barrels daily over the June production. The production continues to increase and the flow of gas at 20,000,000 cubic feet a day is being maintained. This flow will shortly be harnessed to supply Calgary.

Preparations are under way for the holding in Montreal in June next year of the annual convention of the American Association of Railroad Superintendents. J. K. Savage, General Superintendent, Canadian Pacific, was elected chairman of the arrangements committee, and plans were made for the organization of a complete committee to go ahead with the business of making the convention a success.

A despatch from London states that in the past three weeks more than 20,000 boxes of Quebec-made cheese have arrived and been sold in London at good prices, the quality, it is said, being of the best. It is pointed out that if Quebec products are to obtain the position they deserve here it is necessary to keep continuous supplies coming, in order to make them known to the general public, rather than to make either isolated or occasional speculative shipments. Along this line, some 7,000 boxes of Quebec-made cheese went forward from here to the London market during the past week.

About as much sentence as some offenders get in a six month's trial in the court room.

Quality

The most urgent requirement in Canada's Agricultural Products

CANADA produces every year large quantities of wheat, oats, barley, butter, cheese, bacon, beef, eggs, apples, potatoes, grass seed and clover seed that she cannot consume. Her natural outlet for these products is, of course, Great Britain—the one great consuming country of the world with an open market.

Unfortunately, nearly every other country with any surplus of food products seems to want to send its surplus to this same market.

The keenness of the competition on this, our only market, and the energy and resourcefulness of our competitors began to impress themselves upon the Department of Agriculture some time ago, but it is only within very recent years that the real and only way to grapple with this problem has been discovered, or at least put into effect. This Department now believes, as do also most of the farmers of this country, that the "grading" of our agricultural products is the policy and practice that is seeing us through the struggle and will assure us of our rightful place on the British market.

"Grading" means the classifying of products, whether they be hogs, butter, cheese, eggs or anything else, into what might be called in a general way "BEST", "GOOD", "FAIR" and "POOR" classes.

These exact words are not used in describing the grades, but that is what is meant. The purpose served in grading is threefold—

(1) **Educational.** When the producer sees the relative quality of his product he is spurred on to maintain that quality if it is the "best" or to improve the quality where necessary.

(2) **Fair Play.** When products are not graded the inferior article for various reasons often brings as much as the superior article, and the credit and advantage of putting the superior product on the market is lost to the one who really deserves it.

(3) **Facilitating Trade.** The dealer learns to have confidence in the article he is buying and buys more freely, because it is guaranteed by grading, and gradually everybody gets to know what the "best" article really looks like or tastes like. In short, grading brings about standardization and ensures to the producer the best price.

Canada now grades her cereals, grass seeds, hay, potatoes, apples, eggs, butter, cheese, wool and bacon hogs. The results have been in every case beneficial and in some cases quite markedly so, even though the grading system has been in effect in some cases for only two or three years, thus:—

Cheese—Grading began April 1st, 1923. Canadian cheese the year before had fallen into such disfavour on the British market that New Zealand cheese was quite commonly preferred. Today Canadian cheese commands cents per pound higher than New Zealand.

Butter—Grading began same time as for cheese. The reputation of our butter was then indeed at low ebb. Canadian butter today, while not the best on the market, is rapidly improving in quality and gaining in reputation.

Hogs—Over two years ago the Department of Agriculture began to grade live hogs at the packing houses and stock yards. The 10% premium paid by the packers for "select" bacon hogs as against "thick smooths" has classed by departmental graders has done wonders to improve the quality of our hogs and develop the bacon industry.

Best Canadian bacon, which ordinarily was quoted two years ago from 10 to

18 shillings a long hundredweight below Danish, has gradually grown in the estimation of the British wholesale buyer until it is now quoted at only from 1 or less to at most 3 or 6 shillings per long hundredweight below the best Danish.

This improvement in price is, of course, due to quality and has come about very gradually, the spread narrowing down by a shilling or two a month until now it is not at all a rare occurrence to see best Canadian selling on a par with the Danish article.

Eggs—Canada was the first country to grade and standardize eggs. These grades and standards apply not only to export, interprovincial and import shipments, but also to domestic trading.

The basis is interior quality, cleanliness and weight.

Standardizing Canadian eggs has established confidence between producer and consumer and between exporter and British importer, and has resulted in a greatly-increased demand for the Canadian egg both at home and abroad.

Other products might be mentioned where grading has worked to the great advantage of the producer and to the advancement of Canadian agriculture.

Already Great Britain recognizes our store cattle, wheat, cheese, eggs, apples and oats as the best she can buy.

It is for us to so improve our other products, particularly our butter and bacon, as to bring them also into this list of "the best on the British market" and consequently the highest priced.

Grading enabled us to do this for cheese, wheat, eggs and apples.

Grading is helping us to do it for butter and bacon.

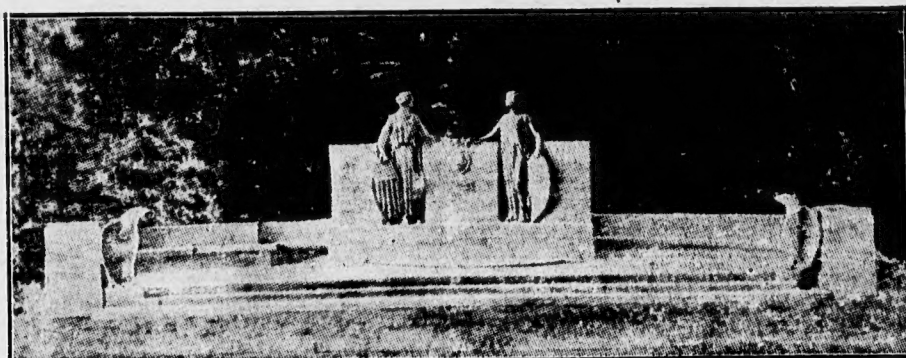

Quality Counts

Quality is thus the first objective for the Canadian export trade, and then steady, regular supply. It is along these lines the Department of Agriculture is working by educational methods, and the result of this policy is seen in the growing volume of Canada's agricultural exports. Look at these figures:—

Canada's Principal Exports of Farm Products

	1922-23	1923-24
Wheat (bus.)	129,212,127	121,764,327
Flour (bbls.)	6,817,022	11,422,227
Bacon and Hams (cwt.)	905,228	1,308,721
Beef Cattle	284,511	319,884
Butter (lbs.)	9,728,414	24,581,881
Cheese (cwt.)	1,584,328	1,580,622
Apples (bbls.)	1,228,428	1,228,428
Oats (bus.)	14,221,048	22,778,781
Barley (bus.)	2,585,228	22,820,428
Rye (bus.)	2,581,428	2,581,428
Bran Shorts and Middlings (cwt.)	518,781	2,907,028
Cornmeal and Rolled Oats (cwt.)	297,228	220,048
Clover Seeds (bus.)	178,515	417,227
Tobacco (lbs.)	220,128	2,521,227
Cream (gals.)	1,278,128	2,224,128
Flax Seed (bus.)	1,224,227	2,224,128

Unveiling The "Altar of Peace" at Vancouver

The President Harding International Good-Will Memorial located in Stanley Park, Vancouver and erected by Kiwanis International through the voluntary subscriptions of its 95,000 members in the United States and Canada, was unveiled by John H. Moss, president Kiwanis International on September 16th in the presence of a large gathering of both United States and Canadian government officials and members of Kiwanis. The memorial was designed by Charles Marega, a well known Italian sculptor of Vancouver. When the scheme was first decided upon, it was the intention of the American Kiwanis Clubs to raise the funds on their side of the border and to present the memorial to Canada. Canadian Kiwanis, however, invited upon contributing towards the fund and the memorial was thus erected by the joint efforts of the United States and Canadian clubs.

At the unveiling ceremony, the Dominion Government was represented by Hon. Dr. J. H. King and Dr. G. T. Harding, brother of the late president. United States Kiwanis was represented by International President John H. Moss, and International Past Presidents Victor S. Johnson and Edmund F. Arras. The Canadian Pacific Railway was represented by Frank W. Peters, General Superintendent at Vancouver. Several of the United States delegates stayed over at Banff and Lake Louise and other points in the Canadian Pacific Rockies before proceeding to Vancouver. The memorial itself is throughout a made-in-Canada product, being designed by Canadians and made of Canadian materials and by Canadian labor.

The site of the memorial is the spot where the late President

President Harding made his last public speech, when just before he died in 1923 he visited Canada. Warren G. Harding, late president of the U. S. A. was a chartered member of the Kiwanis Club at Marion, Ohio, his home town.

An extract from the speech made by the Chief Executive of the United States on that occasion, written in bronze for the memorial, and the possible text of many a murmured prayer of hope of the cosmopolitan tourist who reads it as he passes through the park, is as follows:

"What an object lesson of peace is shown today by our two countries to all the world. No grim-faced fortifications mark our frontiers, no huge battleships patrol our dividing waters, no stealthy spies lurk our tranquil border hamlets. Only a scrap of paper, recording hardly more than a simple understanding safeguards lives and properties on the Great Lakes, and only humble mileposts mark the inviolable boundary-line for thousands of miles through farm and forest.

"Our protection is in our fraternity, our armor is our faith, and the tie that binds, more firmly each year, is ever-increasing acquaintance and comradeship through interchange of citizens; and the compact is not perishable parchment, but of fair and honorable dealing, which, God grant, shall continue for all time."

The memorial, which is known as "The Altar of Peace," has been referred to as the only material symbol of fortification, outside of mileposts, to outline the inviolable demarcation of the thousands of miles of border line separating the two countries from the Atlantic to the Pacific.

WORLD HAPPENINGS
BRIEFLY TOLD

The United States had a fire loss in 1924 of \$550,000,000. It was reported to the Fire Marshals' Association at San Antonio, Tex.

The entire contents of the residence of the late Viscount Leverhulme at Hampstead, England, have been sold to the Anderson Gallery of New York City, for disposal there early in 1926.

More than one million of New York's juvenile population answered the call of the school bell for the fall term. They are accommodated in 700 buildings with 20,000 teachers.

Furs valued at \$150,000, part of a \$200,000 haul made by robbers July 13, from a fur warehouse in New York, were found by the police in a vacant road house on Long Island.

Three workmen have been held for trial in connection with the destruction of the Diet Building at Tokio on September 8. It may develop that the fire was of incendiary origin.

The Delaware River Bridge, under construction at Camden, N.J., has a hoodoo. The death of a laborer by a fall from the structure recently brought the list of fatalities on the big span to 12 since May of this year.

Bakers in convention at Buffalo, N.Y., were told that 18,572 bakeries in the United States, with \$417,000,000 invested and employing 127,495 persons, supply bread for sixty per cent. of the nation's homes.

A London dispatch says that arrangements for re-introducing penny postage into South Africa on January 1 are proceeding satisfactorily, and the concession will come into force on that date.

Just as the rope was being adjusted about the neck of a communist conspirator at Sofia, Bulgaria, a reprieve from King Boris arrived. The King is known for his antipathy toward capital punishment.

A typhoon, described by officers aboard the United States destroyers Ford and Pillsbury as the worst in their experience, swept three sailors overboard off Tsingtao, China. Two were drowned.

The oldest inhabitant of Bristol, England, Mrs. Mary Jarrett, has died in her 105th year. She outlived all her children, and her descendants number over 100. When the King and Queen visited Bristol in June they congratulated the old lady on her age.

Parcel post to the Yukon will be suspended during the close of navigation on the Yukon River, which extends from approximately October 1st to May 31st, according to a bulletin issued by the post office department at Ottawa.

Two large suspension bridges are to be erected across the Fraser River Canyon near Spuzzum, B.C. They are links in the inter-provincial highway and are on the old Cariboo Trail. Tenders are to be called shortly for construction of bridge towers and piers.

Discovers Cure For Dread Disease

Ontario Veterinary Surgeon Believes He Has Found Cure For Cancer

Dr. T. W. Galbraith, veterinary surgeon of London, Ont., believes, after five years of experimentation, he has discovered a cure for cancer. So positive was Dr. Galbraith that his cure, called "issin" was the real thing, that he injected cancer virus into himself last fall and then proceeded to cure it with "issin."

"This substance," says Dr. Galbraith, "administered where cancer has developed, has broken it down. It is practically a preventative and brings immunity. We have experimented with dogs, horses and goats and we find that we have at last reached our goal—a cure for cancer."

American Farmers Purchase Land

Acquire Thirty-three farms and Will Move to Saskatchewan

Optimistic over the future of Western Canada, its magnificent crops and fertile soil, 39 farmers from the United States are enroute to their homes after purchasing 33 farms in the Sulphur Lake and Estlin districts of Saskatchewan. They hope to move their families to Canada this fall or early next spring.

The prospective Canadian settlers expressed themselves as highly satisfied with conditions generally in the west, and predicted an influx as a result of their favorable observations.

Speed in the Air

It is very evident that those who desire real speed must take to the air. A mere 80 or 90 miles an hour in an automobile is pretty tame compared with the record of the French flier who made better than 150 miles an hour for four hours.

W. N. U. 1596

New York's Great White Way

Thousands Paid Every Year For Electric Sign Space on Broadway

It will perhaps surprise many to know that the roofs of numerous buildings along Broadway have a greater rental value than the ground floors, and, in some instances, this rental value is greater than that of the entire building. One company pays approximately \$600,000 yearly for the rental of electric sign space on Broadway. A small four-story building only eighteen feet deep, but strategically located, which is now being used solely as a foundation for electric signs, yields a rental of approximately \$90,000 yearly.

"What makes the 'Great White Way,'" asks Arthur Williams, president of the New York Edison Company. There was a time, he says, when the theatres of New York were the principal users of electric signs. Today, although more than 500 theatres and moving picture signs blaze on or near Broadway, the theatres take seventh place in the great array of business enterprises contributing to this pageant of color and light. It is interesting that 59 churches in the heart of Manhattan use electric signs, a number being large and inspiring illuminated crosses. He goes on:

"New York has both the highest electric sign in the world and the largest—the latter which is on Broadway near Forty-second Street, is 200 feet long, as tall as a five-story building, and contains 19,000 lamps and 21 miles of electric wiring."

"Probably the most striking demonstration of the important influence of New York's Great White Way, not only on this city but on the nation as a whole, was afforded during the world war when, in response to public sentiment, the electric signs of Broadway were darkened. The saving in coal was relatively infinitesimal, but the psychological effect was profound. New Yorkers realized then how dark—if not actually gloomy—this part of the city would be at night were it not for the Great White Way."—Literary Digest.

Believes Battleship Is Doomed

Would Be Helpless Against Air Attack Opinion of Admiral Sims

Admiral Sims has written a letter to Admiral Fullea reviewing the army and navy manoeuvres at Hawaii last June. It has become a demonstration, declares Sims, that "the great battleships cannot remain in the fighting line if attacked by an efficient air force that is practically unopposed." Proceeding, he declares with convincing illustrations that superiority in air force means inevitable victory in sea fights. The battleship, he believes, is doomed.

"The real lesson taught by the manoeuvres is that a fleet properly equipped with aircraft against a force with improper air protection could anchor at ease off one of the outlying Hawaiian Islands and send forward their pursuit aviation to wipe the skies clear of enemy aircraft. This done, they would follow with their bombers, quite able to subdue at will coast and field artillery defenses. After that the fleet could steam up and land all the troops it wished, protected by its own guns and air forces."

Victorian Order Of Nurses

Lady Byng Speaks of the Fine Service Performed by Order

Just how broad a sphere of usefulness the Victorian Order of Nurses covers in Canada was emphasized by Her Excellency Lady Byng of Vimy, at a tea given by the Ottawa Women's Canadian Club. Her Excellency said she received infinite knowledge of the fine service of the order in her recent trip through the Canadian west.

She visited many rural and urban homes where its fine influence was apparent and where living conditions had been alleviated by the tender care of the V.O.N. sisters. Her position of honorary president was one in which she took great pride, she said.

The Income Tax

Abolition of the Dominion income tax is suggested by E. M. Trowern, Dominion executive director and secretary of the Retail Merchants' Association of Canada. One of his objections is that the tax affords too many chances to defraud. He says that there are men going about the country showing people how to pay as little as possible of this levy. That this campaign is not without effect he shows that in 1920 and 1921 the tax realized \$119,000,000, whereas in 1923-1924 it only realized \$58,000,000.—Brantford Expositor.

Almost two-thirds of the world's telephones are in the United States.

Big Exhibition Helps Trade

Canadian Companies Receive Large Orders Through Publicity At Wembley

The second year of the British Empire Exhibition has proven of greater benefit to Canadian trade than 1924. It has been directly responsible, for instance, for the disposal of 135,000 cases of the 1923 pack of salmon and materially helping in disposing the 1924 and 1925 packs; large orders were placed for Canadian furniture; one Canadian rubber company has opened a branch in London and another reports an order of 35,000 pairs of rubber boots; one Canadian firm sold \$100,000 worth of made-up furs. One of the governments represented at Wembley has negotiated for the purchase of 75,000 Canadian plows. The most significant feature of the exhibition, however, is that 130 Canadian firms not previously represented in London have appointed permanent representatives and are prepared to do export business.

Surgeon Performs Delicate Operation

Two Stitches in Heart Saves Life Of A Little Boy

Two stitches in his heart, which had been punctured by a pair of scissors in a fall, saved the life of Melvin Jones, five-year-old boy.

Dr. Herbert H. Schoefeldt, of the Children's Hospital at Washington, D.C., performed the delicate operation, pulling back three ribs to make an opening and lifting the heart up with forceps. A gash a quarter of an inch long was disclosed. Two stitches were taken and the heart placed back in position.

The boy was playing with his brother and sister and started upstairs to cut paper dolls with a pair of scissors in his hand. Tripping, the scissors pierced his side.

Blood was taken from the arm of his father and transfused into the boy's body.

The Wheat Pool

Anything That Benefits the Farmer Helps the Country at Large

Unthinking people might incline to the belief that the mass marketing of the farm crop is redolent of the combine idea. It is far from that. Farm business has hitherto had too much of the hit-and-miss complexion. Every farmer seemed to be running his own show in a rather unintelligent manner. The result was that the industry was down at the heel. The public has gotten a belated lesson that when farming loses out all other business is flat. What is needed in Canada is a living wage for the agricultural class. The wheat pool tends in that direction. When the farmers begin to get too much money is time enough to think about a combine. If the farmers get nicely upon their feet we shall all feel better. Good luck to the wheat pool.—Galt Reporter.

Heavy Cost Of Elections

General Elections to Cost Country Some \$2,000,000

The Dominion general election which is in progress now will cost the country two million dollars. Appropriation of the necessary outlay is a statutory provision of the Dominion Elections Act.

The carrying out of the act is under the direction of the chief electoral officer while the executive administration of the financial outlay is under the auditor-general. There are about 242 returning officers. Their pay is dependent upon the extent of the constituency, the number of polls, etc. Other large items of cost are printing, stationery and expenses connected with the registration of voters.

Government Buildings Burned

Several Injured In Million Dollar Fire At Tokio

Fire has destroyed the Diet Building, two storey wooden structures, which housed the legislative branches of the Japanese Government.

Several persons were injured. The loss is estimated at \$1,000,000. Many valuable documents were lost when a government library in one building was burned. A big modern building is under construction to supplant the buildings burned, but as it will not be ready for several years, it is understood a temporary structure will replace the ones destroyed.

The Diet was destroyed once before by fire. It was rebuilt 34 years ago.

An All-Metal Seaplane

A new seaplane of unusual design has been built at Glasgow for the air ministry. The craft is made entirely of metal, even to the floats, so that it is able to ride out quite rough seas without any fear of damage. It has been given the official designation of Inverness, and is intended for carrying out long distance reconnaissance flights for the fleet.

ECLIPSE FASHIONS
Exclusive Patterns
by Hazel Bayne

Charming Design For An Overblouse

Paris puts a frill on its smartest overblouses, and so we have it here as the distinguishing touch on the two modes pictured above. White crepe-de-chine develops this blouse, the front of which is gathered to the back slightly below the shoulder-line in yoke effect. Right up to the minute is the convertible collar with its trimming-band of the new pansy purple shade. The same trimming is used for the pocket tabs, and the narrow cuffs of the long sleeves. Printed silk in a small design fashions the blouse with the short sleeves, with material of a lighter tone used for trimmings. Sizes 34, 36, 38, 40 and 42 inches bust. Size 38 bust requires 2 1/2 yards of 36-inch material. Price 29 cents.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically, by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

Received Message

From King and Queen

Aunt of Earl Jellicoe Recently Celebrated Her 104th Birthday

Earl Jellicoe's aunt—Miss Catherine Jane Jellicoe—celebrated her one hundred and fourth birthday at her home in Southampton, England. She received congratulatory messages from all parts of the British empire, a telegram from the King and Queen of England being among the first to arrive. The British naval hero visited his aunt, who continues to live an active life. She breakfasted in bed as usual and spent the morning reading a mass of messages. Later two little girls from a neighboring orphanage, of which Miss Jellicoe is a generous benefactor, brought her flowers, and with them Miss Jellicoe discussed her own girlhood with great zest.

Fewer Labor Troubles

Time Loss In Industrial Disputes Less In August

The time loss caused by industrial disputes was less in August than in the previous month, or in August last year, says the federal department of labor Gazette. Seventeen disputes were in progress at some time during the month, involving 13,002 employees and resulting in a time loss of 102,316 working days. Corresponding figures for July were as follows: 16 disputes involving 12,882 work people and 320,433 working days; and for August, 1924, sixteen disputes, 9,472 employees and 206,118 working days.

B.C. Wealthy Apples

Shipments of British Columbia Wealthy apples made to South Africa last season arrived in good order, according to reports received at Vancouver, and the deal was so satisfactory that repeat orders have been received for 1925 delivery.

Chinese wag their clenched fists instead of shaking hands.

Flying and Sailing Ship

Remarkable Plane Has Been Completed For British Government

An aeroplane which is both a flying and sailing ship has just been completed for the British Government and will soon be handed over to the Royal Air Force for trials.

Special masts and sails of light material, over 1,000 square feet in all, will enable the aeroplane to be quickly converted into a trim sailing ship should its 250 horsepower Napier engines fail to work and force descents on the water.

The plane is expected to reduce materially the dangers of long flights over large bodies of water, and if it proves successful it should encourage attempts to fly to the United States.

Experts describe the flying boat as "very remarkable." It was designed by Dr. Rohrbach, a German engineer. Neither wood, wire nor fabric has been used, and the original idea was to develop planes for open sea reconnaissance work with the fleet.

The plane is a four-seater and its whole structure is protected by a special process against the corrosive action of the sea. Another advantage derived from the all-duralumin construction is the fact that the mechanics can walk to all parts of the plane without fear of damaging it, and even while it is resting on the water the mechanics can stand on the water to make repairs. Likewise the engines can be reached when the craft is in flight.

If the tests prove satisfactory the plane, it is said, will be used as the "eyes" of the British navy.

Agricultural Exports Increase

Exports of Products of the Farm Nearly Doubled in August

In a summary report of Canadian trade issued by the department of customs and excise, it is shown that Canadian trade in August, 1925, increased nearly \$60,000,000 compared with August, 1924. The total exports and imports last month was valued at \$194,388,288 as against \$136,791,203 a year ago, an increase in August, 1925, of \$57,597,085.

The value of imported goods in August 1925, was \$81,971,474, in August, 1924, imports were \$61,969,577. Exports last month were \$111,409,525 compared with \$73,821,631 in August, 1924.

The increase in imports was general, the marked increase being that of about five million dollars in iron and products of iron. Exports of agricultural and vegetable products were nearly doubled, jumping from \$19,921,522 in August, 1924, to \$38,238,341 in August, 1925. There was a general increase in all the classified groups in exports as in imports.

In the first month ending August 31 last, imports totalled \$374,057,656, and exports \$462,817,429. The figures for the same period in the previous fiscal year are: Imports, \$333,228,163; exports, \$401,131,225.

Invented Rapid Fire Gun

Frank Milton Garland Dies at Home in New Haven, Conn.

Frank Milton Garland, inventor of the Garland rapid fire gun, 71, one of the first and simplest automatons of that type, died at his home, New Haven, Conn. He had been ill since he suffered a shock while in Europe on a secret mission on which President Wilson had dispatched him.

Mr. Garland was born in Henniker, N. H. When he was seventeen years old he entered the employment of the Winchester Arms Company in this city. While there he read of Maxim's experiments with a gun operated by the recoil and began working along the same line. His first gun, of the Gatling type, was successful.

At the close of the China-Japanese war, Mr. Garland went to China, with other professional men at the invitation of Li Hung Chang, to survey the country's resources.

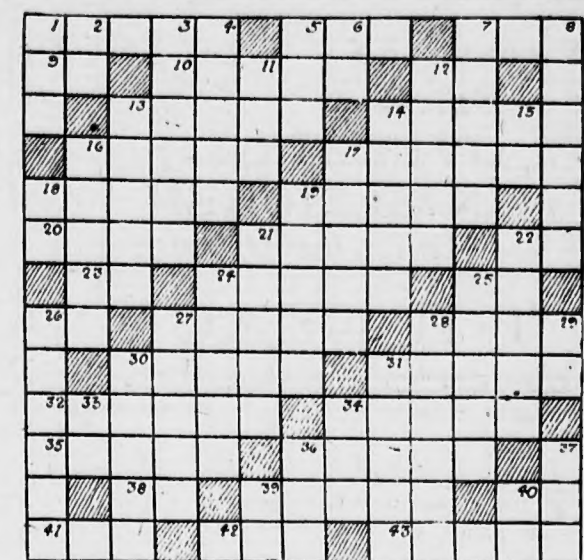

B.C. Town Buys Graded Eggs

Realizing that the marketing of eggs has arrived at the stage where the trading in of eggs at the local store no longer meets the economic requirements of the industry, merchants of the town of Chilliwack, B.C., have decided to refuse to accept eggs in trade and instead eggs are being sent to one dealer who is in the poultry and egg business. This dealer is accepting eggs for cash and pays on a graded basis. He and a feed merchant buy all the eggs in this district which are not shipped direct to Vancouver, and both men maintain that the purchasing of eggs in this manner is much fairer to both the farmers and dealers.

In Belgium nearly all motorists carry emergency kits to be able to assist any injured person found along the way.

In 1920 Russia purchased more than \$5,000,000 worth of ammunition from the United States.

Wasting Helium

Canada is the Sole Source of Helium in the British Empire

When the Shenandoah was destroyed, helium gas valued at \$150,000 was lost. Helium is the best gas for inflating dirigibles, for, though it has only half the lifting power of hydrogen, it is safe; it will not burn, while hydrogen is highly inflammable. The loss is serious, in a way, because helium is a comparatively rare element, and the United States did not have enough of it on hand to inflate its two dirigibles, the Shenandoah, and the Los Angeles, at the same time.

The experience of the United States recalls the fact that Canada, the sole source of helium in the British Empire, is wasting enough of this valuable gas every year to inflate a fleet of Shenandoahs. Helium is found in the natural gases of Ontario and Alberta. It adds nothing to the value of these gases for heating or illuminating purposes and can be extracted with no great trouble. Nothing, however, is done about it. Bow Island gas is three-tenths of one per cent. helium. Calgary uses an average of 4,000,000,000 cubic feet of Bow Island gas each year, so that in that city alone the annual waste is 12,000,000 cubic feet of helium, or about six times the amount required to lift the Shenandoah.—Vancouver Province.

Demonstrates Latest Radio Device

Egg Cooked By Wireless Over Cake Of Ice

Cooking an egg over a cake of ice by wireless was one of several demonstrations of mysterious radio power given at the World's Radio Fair.

The egg was placed in a frying pan on the ice.

In a moment the pan became red hot through the action of the waves that penetrated the ice.

The egg soon was cooked to a turn.

The Editorial Senators

The appointments of Mr. J. L. Lels, Toronto, and Mr. W. A. Buchanan, Lethbridge, Alta., to the senate are well merited honors to two eminent journalists. They will be a strength to the Upper Chamber and will be able to support the reforms that are so much needed to make that body serviceable and powerful in Canada's interests. In journalistic circles their selection will be approved and commended.—Kingston Whig.

True friendship between women is a matter of doubt to most men.

Production Of Fisheries

Salmon Pack In 1924 the Largest in History

The total value of the fisheries production of Canada for the year 1924 was \$41,534,235, compared with \$42,565,545 for 1923 and \$41,800,210 for 1922. These totals represent the value of the product as marketed, whether fresh, domestically prepared or factory made. The four chief commercial fishes in order of value were, salmon with a total market value of \$13,784,920; halibut, \$5,878,870; cod, \$5,443,814; and lobsters, \$4,169,171. The pack of salmon in 1924 was the largest in the history of the industry, amounting to 1,749,068 standard cases of 48 pounds each, compared with 1,616,157 cases in 1918, the previous record year. Of the principal kinds of fish (those having a production value at \$1,000,000 and over), salmon, cod, herring, mackerel, sardines, smelts, whitefish and pickerel, showed increases in marketed value compared with the preceding year, while halibut, lobsters and haddock showed decreases.

Scientists Interested In Faker

Egyptian Demonstrates Power to Make Himself Immune From Pain

Immunity from pain is claimed by an Egyptian fakir, who is interesting scientists in Paris. He claims that he can exercise absolute control over his nervous system by will power. Thara Bey went into a self-imposed cataleptic fit. Two assistants then placed a large stone on his abdomen, calmly proceeded to drive needles and short swords into his flesh and placed his body on a board clustered with sharp-pointed nails. They finally buried him for twenty minutes in a coffin filled with sand. The Egyptian emerged from all these ordeals without the slightest trace of injury.

Strange Things Found In Handbag

A motorist at Houghton, near Preston, found a woman's handbag on the main Bolton road. He pulled up, searched the bag for an address, and found that it contained: Seven lace handkerchiefs, three Japanese flags, eighteen cigarettes, three Felix cats, one powder puff, false teeth, Mascot dog, a French penny, a live frog.

Henry VII. was King of England when Columbus discovered America.

The Man with Money

THOSE who have saved are able to buy, and the man with money in the bank is always ready for any opportunity or emergency.

Determine to save a certain sum—say \$100. That accomplished, save a second \$100, and you will soon have \$1,000 in the bank.

Ask for our booklet, "The Measure of Your Income." It will help you.

Gleichen Branch D. Hutchison, Manager

Fleas and Poor Coal

Mark Twain said: "After all, it's a pretty good thing for a dog to have fleas—it keeps him from worrying over being a dog."

And so it is with the man who continues to burn poor coal—it keeps him so busy with real troubles that he has no time to worry over the imaginary ones that never happen.

PUBLIC LIBERAL MEETING

Hon. Charles Stewart and Mr. Jesse Gouge to Speak Here

TUESDAY, OCTOBER 20th

The Hon. Charles Stewart, Minister of Interior of Canada, and Mr. Jesse Gouge, the Bow River Liberal candidate, will address a public meeting in the Gleichen Community Hall, at 8 o'clock p.m., on Tuesday, October 20th, in the interests of the candidate.

The public is cordially invited to attend this meeting and hear important questions of the day discussed.

Here and There

All previous records set by the Manitoba Telephone System, a provincial all-government owned and operated utility, were surpassed in July, when net earnings for the month were \$15,754. A surplus of \$100,000 was predicted for the present fiscal year.

According to an estimate made by Quebec Automobile Club officials from data supplied by transportation companies and garages, 200,000 tourists have already passed through Quebec this year. This, it is explained, is an increase of twenty per cent. over the total for the whole of last year.

Building permits issued in Winnipeg since the beginning of the current year to date have topped the three million dollar mark, being \$3,034,340 for 1,704 structures. For the corresponding period of last year the total was \$2,289,450 for 1,733 buildings, an increase in value for this year of \$745,890.

Heavy shipments of this season's crop of potatoes in Fredericton, N.B., are now being made to the Cuban market from the potato belt on the Upper St. John River, according to the provincial superintendent of the crops and soil division of the Department of Agriculture. There have been large consignments from Carleton and Victoria counties.

Greater Montreal's population is now estimated at 1,028,000, according to the 1925 issue of Lovell's Montreal Directory just published. Population of the city proper is estimated at 907,500. Population in the suburbs and surrounding country is given as 120,500. The last estimate of Greater Montreal's population, by the same authority, gave the population as 979,027.

A party consisting of twelve Chinese students from Hong Kong and Peking arrived in Montreal recently to take up temporary positions in departments and shops of the Canadian Pacific Railway, in order to familiarize themselves with the railway situation in Canada. They will remain a few months and then return to China to make practical use of the information they acquire.

Among the notable personages who arrived in Canada during the first week in September from Europe were Princess Patricia, Sir Thomas and Lady Grattan, and the Earl and Countess of Mar and Kellie, all of whom were on the Canadian Pacific steamship Mountroyal; James Oliver Curwood on the Empress of Scotland and Baroness Orczy on the Montaigne, of the same line.

TOWN AND DISTRICT

Two dollars will pay new subscribers to the end of 1926.

"Tommy" Plante is the happiest man in all the world—it's a girl and was born in the Gleichen Hospital Saturday morning.

A very successful dance was held at the Meadowbrook hall last Friday evening. Quite a number of town's people attended.

The ladies of St. Victor's church will give a whist drive, dance and supper next Monday night, October 19th, in the Gleichen Community Hall, all day 8:30.

Baseball fans have been delighted to get the results by radio from the Calgary Herald the past week, which was generously supplied by Messrs. Botrel & McLeod with entire satisfaction.

A. E. Stabback, who has been visiting his daughter Mrs. Geo. W. Evans and his son Robert in Gleichen for the past three months left last week for his home in Woodville, Ont.

Mr. and Mrs. Bob Hill are inviting their friends to the "Hill Ranch" for Friday, October 16th, to join them in a real old fashioned barn dance. The invitations are out, "poster size" and its success is assured.

Friday night, October 16th a dance will be given in the Gleichen Community Hall by the Hall Committee. Admission \$1 a couple and extra ladies 25 cents each. Good music and a good time assured.

The whist drive and dance put on by St. Andrews Church last Friday evening, in the Gleichen Community Hall was very well attended and an enjoyable evening was spent by all who attended.

Counter check books are very cheap just now. Leave your next order with the Call.

A. D. Batty who left Gleichen last spring to take a position at the C. P. R. farm at Strathmore has been transferred to Cardale, near Lethbridge, to take charge of a C. P. R. ivoleho etc. LilealM HT HTRADO farm there. Mr. Batty will take over his new duties about the 15th of this month.

The late W. J. Bryan told this story on himself: He was scheduled to lecture at a small western town, but on account of a cloudburst there was a washout on the railroad, so he sent this telegram to the committee: "Can not reach Kentville on time. Washout on the line."

Back came the reply to Mr. Bryan: "Never mind your wash. Buy another shirt at our expense and come anyway."
